DETAILED ACTION

Information Disclosure Statement

The prior art documents submitted by applicant in the Informational Disclosure Statement filed on August 27, 2008 have all been considered and made of record (note the attached copy of form PTO-1449).

Drawings

Four (4) sheets for formal drawings were filed September 14, 2006 and have been accepted by the Examiner.

Specification

Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Allowable Subject Matter

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art cited on attached form PTO-892 is the most relevant prior art known, however, the invention of claims 1-17 distinguishes over the prior art of record for the following reasons.

Regarding claims 1, 6 and 14; the claims are allowable over the prior art of record because none of the references either alone or in combination disclose or render obvious a composition comprising a liquid crystal dispersed within a polymer matrix of polyacrylate resin and a polyisocyanate resin with a minimum bulk resistivity of 1×10^{12} ohm.cm and a voltage holding ratio (VHR) of 98% or greater. Sato et al. (U.S. 5,351,143) teaches a liquid crystal dispersed polymer matrix with polyisocyanate resin and epoxyacrylate but the bulk resistivity was 5.6×10^9 ohm.cm and does not disclose a VHR of 98% or greater. Claims 2-5, 7-13 and 15-17 depend from claims 1, 6 and 14 respectively.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
